Baslow St. Anne's Primary School

Music Policy

At Baslow St. Anne's Primary school, music plays a major part in the life and learning of our children. It enriches school life and we aim to nurture a life-long love of music with an understanding of culture and gender.

We believe that it is vitally important that everybody is safe, confident and happy in our school community. We aim to provide an environment in which our children feel safe, secure and confident, are respectful citizens in and out of school and nurture the Christian values that underpin all that we do. We believe that our children and staff should lead 'a life in all its fullness', nurturing our vision of growing healthy minds and hearts together. We strive to ensure this is in place to enable every child to achieve their full potential and be prepared for their next step in life.

1. Aims

- To perform, listen to, review and evaluate music across a range of historical periods, genres, styles and traditions, including the works of great composers and musicians
- To learn to sing and to use their voices, to create and compose music on their own and with others, have the opportunity to learn a musical instrument, use technology appropriately and have the opportunity to progress to the next level of musical excellence
- To understand and explore how music is created, produced and communicated, including through the inter-related dimensions: pitch, duration, dynamics, tempo, timbre, texture, structure and appropriate musical notations
- To meet the needs of differing abilities within a group
- To encourage all children to develop a passion for music and offer opportunities for all
- To learn about a range of musical styles, cultures, musicians and composers
- To create opportunities for community involvement

- To offer wider opportunities through 1:1 music tuition by peripatetic music teachers from Derbyshire Music Partnership
- To inspire a love of learning music and experience of music

2. National Curriculum

Music is a universal language that embodies one of the highest forms of creativity. Music teaching will engage and inspire pupils to develop a love of music and their talent as musicians, and so increase their self-confidence, creativity and sense of achievement. As pupils progress, they should develop a critical engagement with music, allowing them to compose, and listen with discrimination to the best in the musical canon. As part of one of the foundation subjects of the National Curriculum, we aim to clarify the essential skills, knowledge and understanding of this subject, in a meaningful, enjoyable and practical way.

Each teacher is responsible for planning and differentiating lessons and will make sure resources and printed materials are suitable.

At key stage 1 and 2, there should be a minimum of one session per week spent on music.

Music provision is available to all children and should be taught in ways appropriate to their abilities. Materials may be selected from earlier or later key stages where necessary and prior attainment taken into account, to enable individual pupils to progress and demonstrate achievement.

Music can be closely linked with many areas of the curriculum and can be carried out within the classroom or hall environment. Learning progress should be based on practical work, direct experience as well as other received knowledge. Pupils should be encouraged to ask questions and work individually, as a pair or as part of a class member.

Links with ICT will be used where applicable for example, to record compositions.

Children will be given opportunities to perform throughout the year, in concerts both within and outside of school.

3. Extra-Curricular

We provide all children in KS1 and KS2 with the opportunity to join the school choir. Rehearsals are held weekly and regular performances are given in the community. We also participate in Young Voices and other local festivals and competitions. In addition, all Church services and our Infant and Junior productions contain a large amount of music. We sing every day in

Collective Worship and individual instrumentalists often perform as the children arrive in the hall. We frequently seek opportunities for professional musicians to visit and currently offer: woodwind, brass, string, keyboard and drum lessons. Recorder club is available for those in year 2/year 3 who would like to learn an instrument.

4. Record Keeping and Assessment

Work for each half term is planned on half termly forecasts with activities in line with the NNC guidance and outcomes. At the end of each unit, teachers evaluate the outcomes. As much of the work done is practical, the most appropriate way of assessing it is discussing and talking to children. This will help you, as the teacher, to assess and evaluate their understanding and also help children to make self-evaluations. The teacher will be able to determine the effectiveness of the teaching and the children's learning. Individual comments will be written on end of year reports to reflect pupil progress in this subject.

Evidence of standards in music are recorded where appropriate in photo, audio and visual form. An assessment format is being developed in line with the NNC and 'assessing without levels'.

Peripatetic tutors hold own records and liaise with parents

5. Monitoring arrangement

The Headteacher and Subject Leader will be responsible for monitoring teaching and learning in music. The subject coordinator will be responsible for monitoring work in books and folders and collating evidence of standards for governors and other stakeholders.

Teaching and learning will be monitored annually for core subjects and Computing and at least biannually for foundation subjects.

Work monitoring will take place at least once annually in the term identified in the School Improvement Plan. Results of subject monitoring and development will be reported to the governors at Curriculum sub-committee. Any actions will be included in SIP.

The Headteacher will monitor all peripatetic teaching that takes place in school.

6. Resources

Schemes of work and LCP files are kept with the Coordinator file and all musical instruments are located in the Kingfisher Room in music trays.
Resources are reviewed and restocked regularly by the coordinator.

7. Health and Safety

This policy should be read in conjunction with The Health and Safety Policy.

8. Accessibility and equal opportunities

This policy should be read in conjunction with the equal opportunities policy and the accessibility plan.

9. The School Improvement Plan

This policy has been reviewed as part of the on going school improvement cycle to ensure quality curriculum provision.
